Artur Babichev

Mobile Developer

PROFILE

With **over 6 years of experience** in developing Android applications primarily using **Kotlin**, I am skilled in creating mobile applications from scratch and diving into existing codebases.

I have a strong background in writing and publishing libraries and setting up CI/CD processes.

Currently, I specialize in **Kotlin Multiplatform** development.

SKILLS

Languages: Kotlin, Java

Technologies/Tools: Kotlin Multiplatform, Compose Multiplatform, Android SDK, Ktor/Retrofit, SQLDelight/Room, Koin/Dagger, JUnit/Mockito/Espresso, LeakCanary, Crashlytics, Gradle, Git, Fastlane, Docker, Github Action, Gitlab CI
